

## Embroidery and Screen Printing Position Maps

### Upper Garments Headwear

#### Upper Garments

Below Embroidery and Screen Printing positions can be used for Polo's, T-Shirts, Singlet's, Hoodie's, Work Wear, Jackets and Shirts. If any positions are not allocated or you require further assistance please email [enquires@stylemanagement.com.au](mailto:enquires@stylemanagement.com.au)

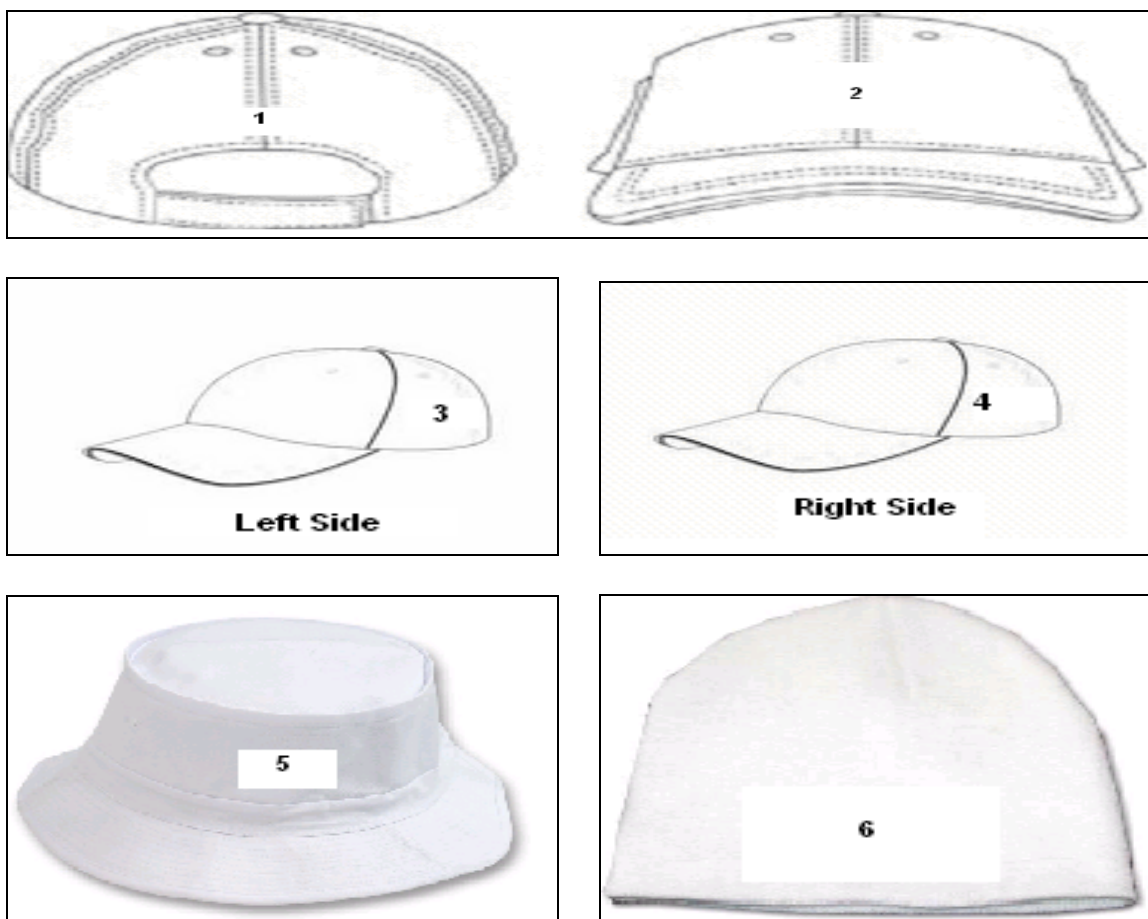

Embroidery cost is based on how many positions and 5000-stitch count. If unsure of the stitch count for your logo please email it to us so we can confirm prices for you.

When costing Screen Printing, please note that dark coloured garments may require a base white print first, which would make the job a two-colour print.
